(*e*) No. 9058, dated 1st May 1909.

CAMP NO. 20-30, DATED CAMP MYSORE, 30TH MAY 1909.

ORDER THEREON.—In consideration of the exceptional conditions of the year Kilaka (1908-09), the following orders in regard to remissions and suspensions of the Land Revenue for that year are issued for information and guidance of all concerned in lieu of those contained in the Government Proceedings above cited :—

1. *Assessment on lands classed as wet.*—On lands classed as wet under whatever source of irrigation, on which the wet crops have in the year Kilaka (1908-09) totally failed or the outturn is not more than 25 per cent of a normal crop (*i. e.*, not more than 4 annas out of a normal 16 annas), one-half of the assessment shall be remitted and the other half shall be collected.

2. For occupied waste within the tract the same rate of remission shall be given as for land on which the crops totally failed. But no remission is to be given on "mamool waste," that is to say, on occupied land which is not cultivated regularly in a normal year and which it may be presumed would have been left uncultivated even if the season had been normal.

3. Where dry crops may have been raised with or without the aid of Sirkar water on land classed as wet, the same concession as in para 1 shall be granted, but the average rate of dry assessment prevailing in the village shall also be levied on the land on which dry crop has been raised. The plots need not be measured, but an entire survey number or a recognised share of a survey number shall be treated as a whole. If the dry crop entirely failed, this additional dry crop charge need not be imposed.

4. *Assessment on lands classed as dry.*—On lands classed as dry where the dry crops have totally failed, or their outturn was not more than 25 per cent of a normal crop (*i. e.*, not more than 4 annas out of a normal 16 annas), one-half of the assessment may be suspended and the other half collected.

5. Lands classed as dry on which a water rate is separately levied for the use of Sirkar water without its being incorporated with the wet assessment, shall receive the same treatment as lands classed and assessed as wet.

6. *Assessment on lands classed as garden.*—Where lands classed as Bagayet are usually cultivated with wet crops, the same treatment shall be accorded as above prescribed for lands classed as wet.

7. Where there has been a great loss of arecanut or cocoanut trees or of their produce, the Deputy Commissioner, for reasons to be recorded, may suspend the collection of one-half of the assessment.

8. *Local cesses.*—It should be distinctly understood that remissions of Local Cesses do not follow on remissions of assessment. They should invariably be collected on the entire assessment as usual (including the portion of the assessment that is remitted), a postponement being alone permissible in special cases in which the Deputy Commissioner may consider this concession necessary.

9. *Minor inam lands.*—The foregoing orders in regard to suspensions and remissions of revenue are applicable also to minor inam lands charged with full assessment or with a quit-rent or jodi equal to or more than the full survey valuation.

10. *Whole inam villages.*—They are applicable also to lands in whole Inam villages under Government management.

11. *General remarks.*—Jamabandi officers should be careful to see that all remissions granted under these rules are well notified and entered in the Raiyats' Patta Books.

12. Remissions are to be granted for villages and homogeneous tracts taken as a whole. The concession (whether remission or suspension of revenue) should be regulated with regard to the outturn of the crop and not with reference to the circumstances of the raiyat owning the land.

13. In individual cases the Deputy Commissioner or Sub-Division Officer will be justified in refusing remission where the moiety to be collected is not punctually paid in due time.

14. The foregoing instructions will have force only in the following areas :—
